## Objective

---

Motivated aspiring Web Developer with hands-on experience in building responsive and user-friendly web applications. Seeking an internship to apply development skills, learn industry best practices, and contribute to real-world projects.

## Skills

---

- **Programming:** Python, HTML, CSS, JavaScript
- **Frameworks:** Spring Boot
- **Database:** SQL
- **Core Concepts:** Operating Systems, Responsive Web Design
- **Tools:** Git, GitHub

## Projects

---

### Amazon Clone Website

- Developed a responsive Amazon clone homepage using HTML and CSS.
- Designed navigation bar, search section, product cards, and footer similar to the original website.
- Focused on clean layout, proper alignment, and responsive design principles.
- Improved frontend development skills through real-world UI replication.

### Memristor-Based Learning System for Energy-Efficient AI

Academic Project

- Designed a concept-driven AI learning system using memristor technology for low-power computation.
- Focused on improving energy efficiency and faster data processing in AI-based learning models.
- Explored the use of neuromorphic computing concepts for real-time intelligent systems.
- Strengthened understanding of AI hardware integration and next-generation computing systems.

## Education

---

### Amity University

Bachelor's Degree (Pursuing)  
CGPA: 6.43

Expected Graduation: 2027

### Adarsh Vidya Mandir, Chas,Bokaro

Senior Secondary (Class-XII)

### Adarsh Vidya Mandir, Chas,Bokaro

Secondary (Class X)

## Strengths

---

- Quick learner with strong problem-solving ability
- Self-motivated and disciplined
- Focus on small details to avoid mistakes in code and design.
- Able to understand new technologies and tools fast.

## Declaration

---

I hereby declare that the above information is true to the best of my knowledge.
